## Delicate Luxury of "CHERUB": 14.5 Micron Cashmere Yarn

"CHERUB" is a luxurious and comfortable organic natural cashmere yarn, carefully crafted from cashmere fibers with a fineness of less than 14.5 microns, giving it a naturally soft and smooth texture. The habitat of these diamond-grade small goats can be traced back to the Albas region in western Inner Mongolia, a natural organic grazing area renowned for its globally top-notch excellence.

"CHERUB" cashmere yarn is made from carefully selected Albas small goat cashmere, meticulously combed during the natural moulting season to obtain the most precious and delicate cashmere, with each fiber measuring less than 14.5 microns in diameter. The extremely fine fibers provide unparalleled warmth and luster, making it an instinctive choice for those seeking the ultimate in luxurious natural materials.

Named "CHERUB" for its delicate and angelic qualities, it perfectly complements the lightness and timelessness of the small goat's raw materials. The softness and sheen of the small goat add to the authentic texture of "CHERUB". This perfect combination makes garments knitted with "CHERUB" yarn a gentle and elegant choice. Whether for outings, vacations, or formal occasions, it brings forth the natural beauty and shapes an intellectual and unique natural style.

Whether you are designing high-end fashion and accessory collections or intricate knitting works, "CHERUB" cashmere yarn is the ideal choice. ### RECOMMENDED FINISHING

A two bath method, using a designated detergent, will give the optimum handle. The first bath is designed to remove the spinning oil and residual dyestuffs and the second to mill the garments to the required handle.

The following recommendation is based on a rotary finishing machine.

- Water temperature: 45°C
- Liquor ratio: 20:1 (20 litres of water for every kilogram of garments)

#### Bath 1:

- 5-10% of non-ionic detergent, based on weight of goods
- Run for 17 minutes, soak for 30 minutes
- Drain and rinse

#### Bath 2:

- 2-5% detergent, based on weight of goods
- Soak for 20 minutes, depending on the handle required  
For a softer handle extend the time in this bath
- Drain and rinse
- 1.5% softener maximum
- Standard tumble dry 70-80°C (60°C for light shades), until dry. Do not over dry.

### CARE INSTRUCTIONS

-   Hand wash or dry clean
-  Do not bleach
-  Dry flat, do not tumble dry
-  Iron at cool setting
